

SILVERDALE CREEK BRIDGE Mission, BC

design & construction

Working in conjunction with NDLea (Structural Consultant) and Scott Resources (Environmental Consultant), Wedler Engineering LLP provided design and construction services for a new bridge to connect to a new industrial site in Mission.

Wedler provided overall design management for this Master Municipal Construction Document (MMCD) Gold Book contract.

The project involved:

- Roadworks and bridge approaches
- Reshaping of existing dyke for bridge works
- Coordination of sub-consultants

CLIENT:
District of Mission

LOCATION:
Silverdale Creek
Mission, BC

CONSTRUCTION COSTS:
civil: \$470,000
bridge works: \$1,400,000

COMPLETION DATE:
October 2005
