

STAPLES BUSINESS PLAZA Chilliwack, BC

civil engineering services

Wedler Engineering LLP provided civil engineering services for an 8-acre commercial development with Staples Business Depot as the core anchor tenant. The project is located within Chilliwack's commercial corridor on Vedder Road at Knight Road.

The project included:

- Drainage system design meeting the City's new policy of infiltrating and detaining storm water as a means of managing both flood risk and environmental risk. This project was the first commercial property in Chilliwack to be designed and constructed meeting the City's new drainage policy.
- Parking lot grading and utility design
- Construction administration and inspection
